

Faruk Ahmed Sifat

Computer Science & Software Engineering Student

23-51221-1@student.aiub.edu · Dhaka, Bangladesh

PROFILE

I am a Computer Science student who enjoys turning complex requirements into simple, dependable products. My work sits at the intersection of software engineering, product thinking and visual craft.

EDUCATION

B.Sc. in Computer Science & Engineering

Your University Name · 2022 — Present

TECHNICAL SKILLS

Languages: Kotlin, C++, PHP, JavaScript, TypeScript, Python, SQL, HTML / CSS

Frontend & UI: React, Next.js, Redux, Tailwind CSS, Framer Motion, Responsive Design, UI/UX Design

Backend & APIs: Node.js, Express, Laravel, Django, FastAPI, REST API Development, JWT Authentication

Mobile Development: Android Development, Jetpack Compose, Kotlin Coroutines, Room Database, Retrofit, Firebase Authentication

Tools & Hardware: Git, GitHub, Android Studio, PlatformIO, ESP32, Arduino, Raspberry Pi, MQTT, Figma

DevOps & Deployment: Docker, GitHub Actions, Vercel, Netlify, Linux, CI/CD

Professional Skills: Problem Solving, Data Structures & Algorithms, Software Architecture, Team Collaboration, Technical Documentation, Project Management, Research, Communication

SELECTED PROJECTS

Nexa Finance — A calm, data-rich personal finance companion built to make better money decisions feel effortless.

#Android #Kotlin #Firebase

Features: Offline-first transaction flow, Biometric authentication, Insightful spending charts

Campus Connect — A focused collaboration hub that helps university communities share events, resources and momentum.

#React #PHP #MySQL

Features: Role-based workspace, Searchable resource library, Real-time notifications

AeroSense — A connected environmental monitoring system translating raw sensor data into clear, useful actions.

#IoT #ESP32 #Blynk

Features: Live sensor telemetry, Threshold alerts, Low-power architecture

AVAILABILITY

Open for internships & collaborations
